Components	Explanation				
<p><b>I. Student/Program Growth Objective Statement</b> (What the learners/clients will accomplish; What is the SMART Goal?)</p>	<p>During a breakout session on academic integrity at the 2014 High School Summit, the issue of how to best educate our students on plagiarism and correct MLA citation was raised. To address this schoolwide need and build on the existing english plagiarism unit, the librarians will create and teach a 9th grade HAP lesson to strengthen students citation skills as measured by calendar data and lesson plans.</p>				
<p><b>II. Baseline Data</b> (What is shown by the current data?)</p>	<p>To determine growth, we established baseline data from the 2013-14 library calendar and lesson plans.</p> <p>Since this is a new area of development, our baseline data is as follows:</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>HAP Library visits 9/1/13-3/31/14</th> <th>Direction instruction by LMS</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">0</td> <td style="text-align: center;">0</td> </tr> </tbody> </table> <p>Total # of 9th grade HAP classes: 19</p> <ul style="list-style-type: none"> <li>- Developing Range (10-12 classes)</li> <li>- Proficient Range (13-15 classes)</li> <li>- Advanced Range (16-19 classes)</li> </ul>	HAP Library visits 9/1/13-3/31/14	Direction instruction by LMS	0	0

<p><b>III. Environment</b> (Is there anything you wish to share regarding your student/client population and/or any special circumstances about this class, group or program?)</p>	<p>All of the HAP students have received instruction on plagiarism and MLA citation in English class. In addition to the HAP classes noted, the librarians will approach the Excel teachers and offer to extend the lesson to their students.</p>
