

Initial Objective Submission 10/16/15

NHHS Media Center: The media specialists do not conduct regularly scheduled classes, but teach information-literacy skills at the request of classroom teachers. We rely upon classroom teachers to understand the need for information literacy, provide us with access to students, and reinforce our instruction through the design of their assignments.

Professional development for teachers in the area of information literacy.

III. Baseline Data (What is shown by the current data?)

During the 2013-2014 school year, the librarians provided information literacy lesson consultation and instruction for 39 teachers in 8 departments (list attached).

IV. Objective Statement (Describe what you want learners/program to accomplish; use the SMART format)

During the current school year, increase outreach, consultation, instruction, and professional development for teachers by at least 25% over the 2013-2014 level of 39 teachers reached.

Strategy

Design and deliver information literacy workshops during Professional Development cafeteria days.

Evidence

- District PD catalog
- Instructional plans and handouts
- Participant feedback

Target Date: 5/29/2015

Strategy

Provide information literacy "infomercial" quick trainings at Faculty Meetings.

Evidence

- Faculty Meeting agendas
- Post-meeting follow-up communications

Target Date 5/29/2015

Strategy

Develop self-serve instructional pathfinders and tools about information literacy for faculty members.

Evidence

- Pathfinders
- Usage statistics

Target Date: 5/29/2015
